

COVERAGE BREAKDOWN

Employer sponsored health plans have shifted to the self insured market, allowing consumers to save up to 25% because these plans are subject to federal, not state, regulations.

EMPLOYER HEALTHCARE CONTRIBUTIONS

Employers contribute an average 76% to employee premiums—rising healthcare costs drive up the state's already high cost of doing business.

$$\begin{array}{rcccl} \$1,670 & + & \$5,342 & = & \$7,012 \\ \text{Employee premium} & & \text{Employer premium} & & \text{Total annual} \\ \text{contribution} & & \text{contribution} & & \text{average} \end{array}$$

STATE GOVERNMENT ASSESSMENTS

\$162.93

**per policy
annually**

Last year, state government assessments totaled nearly \$100M—including a public health assessment, contributions to the general fund, and supporting the exchange—in addition to \$209M collected in premium taxes.

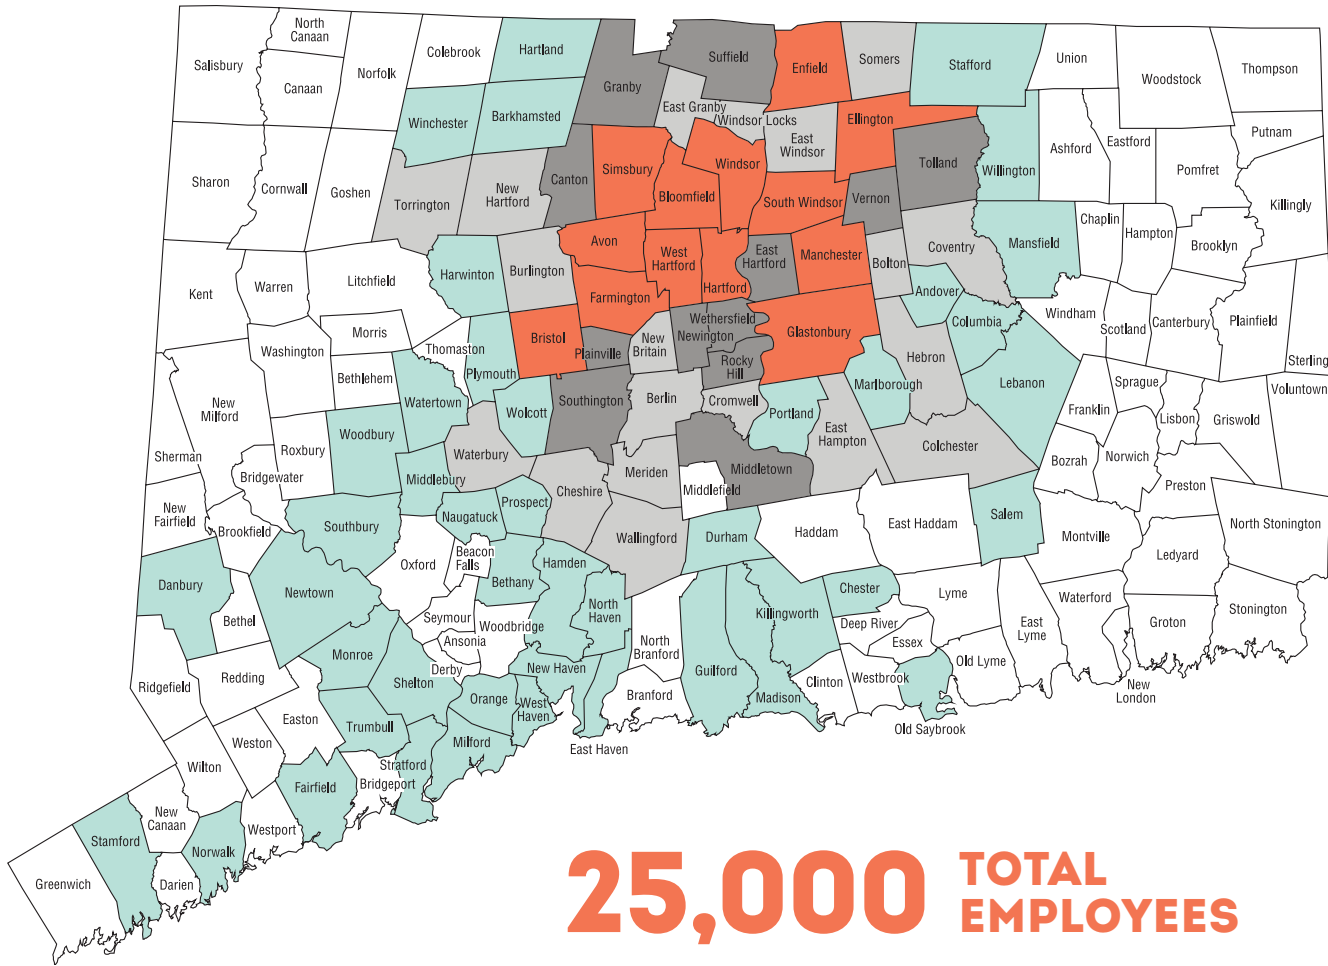

STATE GOVERNMENT BENEFIT MANDATES

Connecticut state government mandates add over \$2,000 annually to health insurance premiums.

\$2,085.48
